- **Battery type:** AA, R6
- **Battery voltage:** 1.5 V
- **Number of batteries:** 2

Product highlights

Dynamic Bass Boost

Dynamic Bass Boost maximizes your music enjoyment by emphasizing the bass content of the music throughout the range of volume settings - from low to high – at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

Stereo in-earphone by-packed

Less than 35 mm in depth

High-quality finish

Autostop stereo tape deck

Detachable belt clip
